

My tax dollars pay for the airwaves, which belong to the non-partisan public at large. Allowing a corporation to use these airwaves to run as free television, a politically one-sided program during an election period is a disgrace. Please step in and disallow Sinclair Broadcasting's decision to air this anti-Kerry piece. Our country's future, and present are at stake in seemingly small decisions such as this, which will, without doubt, influence millions. Free television is exactly that - free of partisanship, free of bias, and free of yellow journalism.

Thank you for your attention to this crucial matter.
